# Data Valley

StatQuest
breaking down major methodologies into easy-to-digest pieces, and making challenging topics like statistics and machine learning easier to understand.

Data School
helping beginners learn the right things and focus on the topics they need to master first.

3Blue1Brown
A combination of math and entertainment, using animations to drive explanations of complex concepts.

Sentdex
Used to train and test supervised and unsupervised machine learning models.

Corey Schafer
Focuses mainly on the fundamentals of programming

FreeCodeCamp
A low code library for deploying and testing machine learning models.

Data Science Dojo
Their motto is data science for everyone, committing to strip the complexity of data science.

365 Data Science
A wide variety of videos covering topics like data science, machine learning, business analytics and so much more.

Derek Banas
covering topics like probability, statistics and time series and much more

Edureka
An e-learning platform that posts videos in python, data science, artificial intelligence, and deep learning.

Krish Naik
This channel explores various topics related to Data Science and Machine Learning.

Data Academy
This channel publishes great tutorials, one of which is posted in Arabic data analysis with python.

Mustafa Othman
With simplicity, the Egyptian accent and sense of humor, he Posted many videos about data science, analytics, machine learning and marketing.

Ans
This channel is suitable as a starting point for data science and machine learning.

Deena Gergis
Deena is an Egyptian Data Scientist living in Germany. She works at Bayer pharmaceuticals and since 2013, she's been sharing helpful tutorials and explanations on her channel for aspiring data scientists.
